-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claim 14 is objected to because of the following informalities: in claim 14, line 8, "the first motor" has no antecedent basis in the claims. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 14 is rejected under 35 U.S.C. 102(b) as being anticipated by Kim (US 5,182,573).
Kim discloses a printing apparatus including a carrier ribbon supply spool and a carrier ribbon take-up spool 20 as shown below in the Figure taken from Figure 2 of Kim:

FIG. 2

Art Unit: 2854

Kim further discloses a print head 3. Although not explicitly disclosed, a thermal print head inherently has a plurality of heating elements which are individually addressable and energisable selectively to remove pixels of marking medium from the carrier ribbon 8 during a printer operation (applicant may refer to the definition of “thermal transfer printing” as provided by Answers.com). The print head 3 is movable towards the adjacent carrier ribbon 8 and substrate 9 during printing to urge the carrier ribbon 8 towards the substrate 9, and as shown above, the print head 3 is moved away from the carrier ribbon 8 and substrate 9 after printing. In claim 8, Kim discloses a “means for cycling said cam follower along said cam path, to drive said print head relative to said first surface” which can broadly be interpreted as a motor for moving the print head 3. Further disclosed is a mechanical guide means including a cam 6 carried by the print head 3, the cam being configured to engage a track 5 to control print head movement towards and away from the carrier ribbon 8 as a result of the print head movement relative to the carrier ribbon 8 as shown above.

Allowable Subject Matter

4. Claims 1-13 and 16 are allowed.

Response to Arguments

5. Applicant's arguments with respect to claim 14 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 2854

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel J. Colilla whose telephone number is 571-272-2157. The examiner can normally be reached on M-F 7:30-5:00.
